

## Parking Details for Food Truck Placement at Hop Yard 62

You will be parking up on the sidewalk just beside our location. You will park between two city light posts, so you have ~28 feet to work with. You may want to come South on SR62 or Broadway into the Town Center and just turn up on the sidewalk when you get right past the traffic light Grove City Road. Depending on which side your window is, you may want to travel down SR62 and turn around at the skating rink past Hop Yard 62 and come North to position your vehicle correctly.

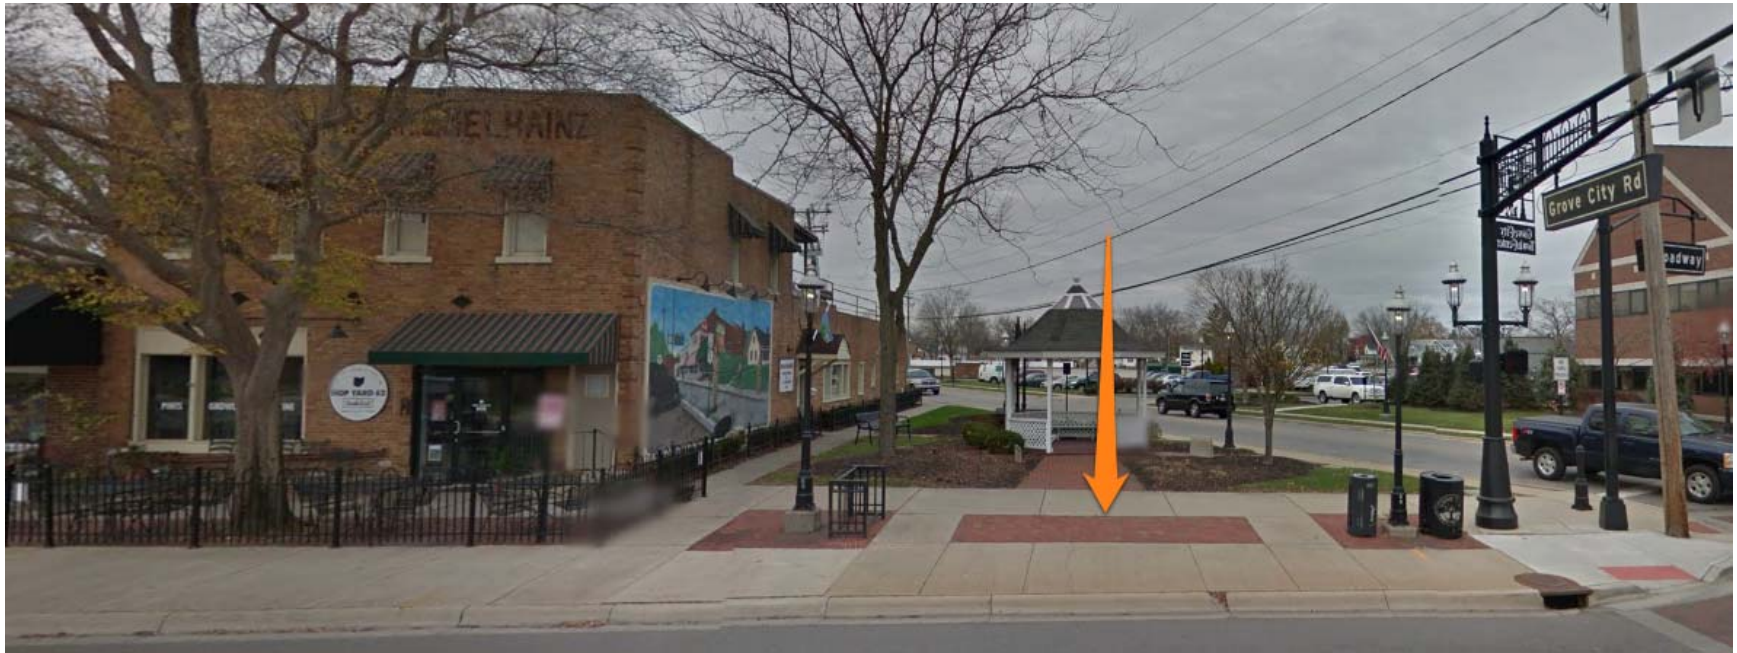

Please do not park or turn around in the alley right beside our location, we have had issues with that. When you get there we can get someone to guide you in.

This is where you will end up.

This is the spot.

We ask that you be ready to serve at 6:30 and serve until 9:30 PM if you are having great business. We also see the best results from food trucks that can bring printed menus into the bar for the customers to read.

We will have you on the front city owned sidewalk beside our front patio and on the corner of Broadway and Grove City Road, where we have seen great exposure and results.

**Please do not use the Grove City Chamber of Commerce's spots and the parking spots behind the Total Platinum Salon for anything such as turning around or parking. It is a very narrow alley way with low hanging wires and there have been issues there.**

Thanks and please let me know if you have any questions.

I can be reached at 614-746-6549

Thanks,

-Greg
